

DSB Student (Ed)Tech Tools

MacID

MACID is your unique, common identifier, single sign-on for a number of McMaster systems and applications. This is different than your student number, and you will receive further information prior to program start on how to activate and use your personal MACID.

McMaster Email

StudentMail is the McMaster-provided email account for undergraduate and graduate students. This is used to communicate with professors, peers and faculty. StudentMail is the only email where staff and faculty can communicate with students.

Mosaic Student Centre

Mosaic Student Centre allows you to enrol in classes, view your timetable, view and print tax forms and more! Mosaic access is based on the user's MACID, upon activation.

OSCARplus

OSCARplus is an online platform you can use to engage with Student Success Centre services. These services include events, appointments, and workshops to support your academic, personal, and professional development and success.

OSCAR | plus

avenue to learn

Avenue to Learn (A2L)

Avenue to Learn is the primary learning, course delivery and assessment platform at McMaster. A2L can be accessed once you have activated your login information (prior to the start of the program). Please check out this DSB A2L Onboarding Guide for extra resources!

Not sure who to contact at DeGroote?

Please visit the **DSB Contacts** page, and use the Directory or Programs tiles to guide your search!

DSB Student (Ed)Tech Tools

Office 365 - Students

As a student at the DeGroote School of Business you will have access to Microsoft Office 365 for Business (including MS Teams). This license is only applicable while you are enrolled as a student.

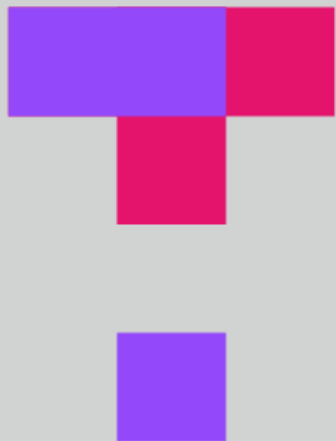

MS Teams

MS Teams is an easy-to-use messaging service that can conveniently be accessed via a web portal or mobile app and is part of Office 365. Teams also allows direct messaging, calls and group chats. Some courses create a Teams group to host sync sessions and discussions.

TopHat

Top Hat is currently used to deliver interactive readings and assignments, host polls and discussions, manage assessments and gain rich insights into student progress and performance to enhance the learning experience.

LinkedIn Learning

LinkedIn Learning is an on-demand learning solution designed to help learners gain new skills and advance their careers. McMaster students have free, unlimited access to video tutorials related to business, media and technology through LinkedIn Learning.

Zoom

All McMaster students now have access to licensed Zoom accounts that have the capability of hosting meetings of up to 300 participants. You will access the licensed account by signing in with your MACID email and password.

Stay in touch with DeGroote's news, for messages from DSB Faculty, Staff, and Partners.
