

Tutorial #5 [Tutorial] – [TA name]

Agenda

- 1. Recap on the last week
- 2. Assignment #5 Breakdown
- 3. Breakout Room Group Work for Assignment #5
- 4. Presentations & a Vote
- 5. Recap!

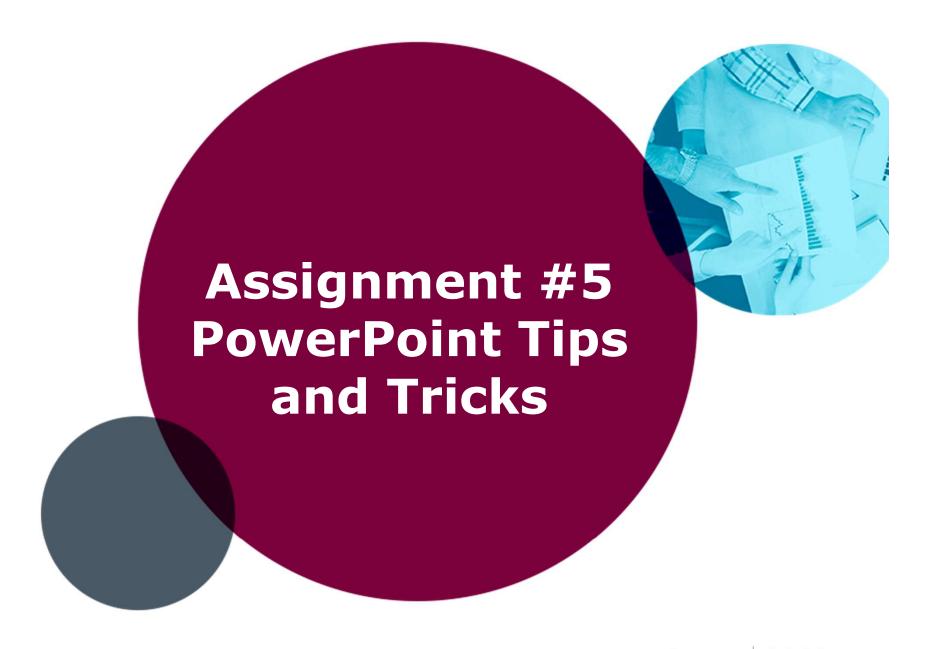

Recap

- Lecture: PowerPoint
 - How to present information
- Great work on Assignment #4!

Are these good slides?

Let me know in the chat if these slides are good or not!

Training in Sports

- Wow we have written so much good information it is so exciting to read this presentation I love to learn and be a great student and learn a lot did you know that students love to learn
- Additionally, many students like to learn and sports are something a lot of students like to learn about
- Sports are really cool and keep you active and having fun, I played sports as a kid. I also danced as a kid. I love to play games
- Sports can be really fun they can also be really hard who wants to hear about this? Are you even paying attention?
- Did you even pay attention in the first place? Probably not.
- This slide stinks

Coaching Focus

Team Sport

Individual Sport

HIGH LEVEL

Performance based

LOW LEVEL

Life-skills based

HIGH LEVEL

Mentorship based

LOW LEVEL

Technique based

FORMAL ONBOARDING

- Rules/Regulations
- Preliminary training (ex. Safe return to sport, Rowan's law modules)
- Performance expectations
- Philosophy of coaching

In-clinic (on site)

Pre-clinic

(online)

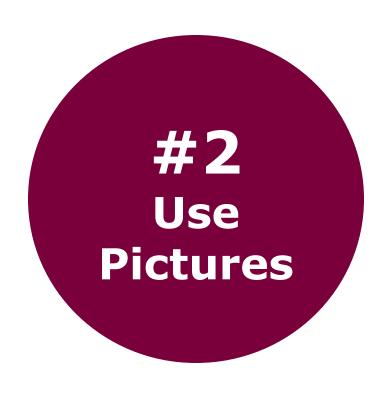

Make your slides visually appealing

- Use a template or theme
 - Microsoft Provided
 - Externally Sourced
 - SlidesGo.com
 - SlidesCarnival.com
- Use a unique design

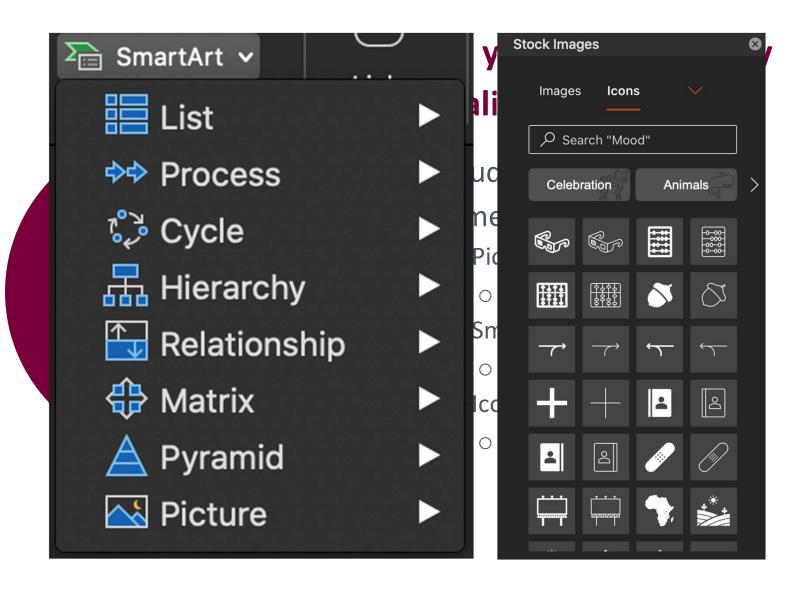

Make your slides visually appealing

- Include some interesting elements:
 - Pictures
 - Insert > Pictures
 - Smart Art
 - Insert > Smart Art
 - Icons
 - Insert > Icons

Don't Overwhelm Your Audience

- Include only your key points
- Keep your font at 16 +

US Wireless Market - Q2 2010 Update

Executive Summary

The US wireless data max of grew 6% Q/Q and 22% Y/Y to exceed \$13.2B in mobile data service reverses in Q2 2010 on track so far to meet our into Cestimate of \$54B for the year.

Having narrowly edged NTT DoCos. Just quarter for the first time, Verizon Wireless contine of to maintain its number one ranking for the iH 2010 in terms of the operator with the most mobile data revenue, along the difference was thinner than the amoeba membrane). The use wireless connections for Verizon we almost 100M with 92.1M being the traditional subscriber base. Rest of the 3 top 18 operators also maintained bearing positions amongst the top 10 global mobile data operators.

Sprint had the first positive netadd quarter in 3 years and see also been slowly and steadily turning the ship around. To Mobile did better on the postpaid netadds but overall additionable, the dagain. The larger question for the market is if 4 large players can stay competitive. Generally, the answer is no sold lices are different times and there are a number of permutations and combinations that are possible.

The US subscription penetration crossed 95% at the 3rd of Q2 2010. If we is mout the demographics of 5 yrs and younger, the mobile penetration is now past 100° A While the traditional net-ade. Nave been slowing, the "connected device" segment is picking up so much that it an AT&T and Verizon added more come ted devices than postpaid subs in Q2 2010. Given the slow postpaid got and, operators are fiercely competing in prepaid, a terprise, connected devices, and M2M segments.

Data traffic continued to increase all networks. By 1H 2010, the average US consumer was assuming approximately 230 MB/m ap 50% in 6 months. US has become ground zero for mobile broadband consumption and data traffic managemy evolution. While it lags Japan and Korea in 50 genetration by a distance, due to his crease penetration of single-phones and datacards, the consumption is much higher than its Asian counterparts. Given that it is also becoming the largest deployment base for HSPA+ and LTE, most of the cutting edge research in areas of data managemy at and experimentation with policy, regulations, strategy, and business models is taking place in the network of the US operators and keenly watched by players across the global ecosystem.

we had forecasted, the tiered pricing structure for mobile broadband touched the US shores with AT&T becoming the pricing plan based on consumer consumption. We will see the pricing evolve over the quarters as the US mobile ecosystem adjusts to the new realities and strategies for mobile data consumption.

What would YOU want to see?

Assignment 5

- & Check out Assignment #5 on Teams & see my message
- ☼ Group Work same groups!
- Make a 3 minute Presentation & Slide Deck
- At least 1 slide and 30seconds of speech per person
- Include a title slide and agenda (not part of the 1 slide per person)
- Use the "Notes" section for your speaker notes (script)
- Use the tips we discussed!
- & Be confident during your presentation
- Submit on MS Teams (1 submission per group) you will get the same mark

Presentation Skills

න න

8

Group presented the topic with a high level of effectiveness.

Group presented the topic with good presentation skills.

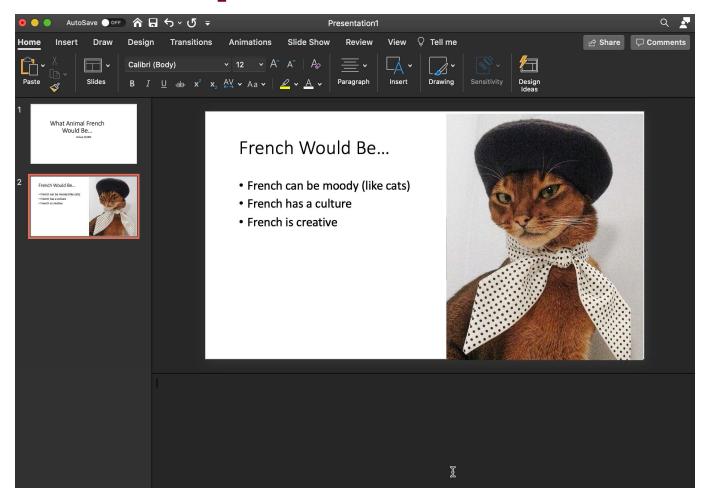

Group presented the topic with some effectiveness.

Group failed to present.

An Example...

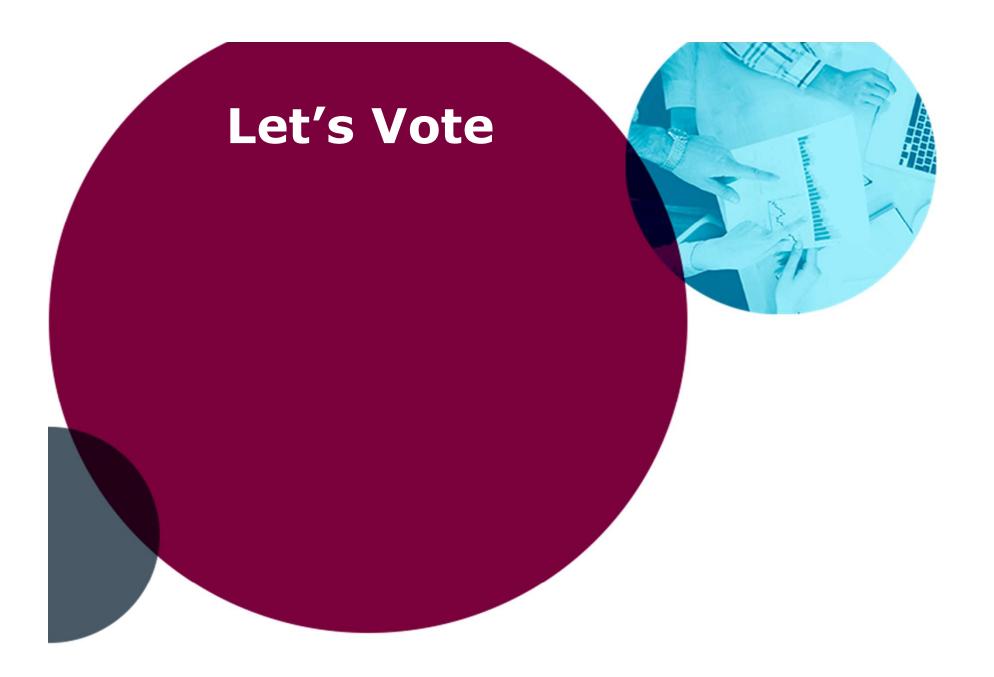

Breakout rooms – 45 mins

- Groups assigned on MS Teams Chat
- Work together to choose a topic, create slides and present (USE LINK IN TEAMS CHAT)
 - Structure your Presentation
 - Help each other
 - Ask for help I will be checking in!
- BE READY TO PRESENT AT THE END!
 - You can make changes after the tutorial for submission!

Chance to win a Starbucks Giftcard!

To Do List

- Complete Assignment 5 by [Date & Time] one group member to submit on
 MS TEAMS
 - Make sure ALL group members names/student # are on the assignment
- □ Let me know how your group is working together!
 - Email or MS Teams message
- □ Tune in to see winning group in class on [Date]
- Take some time for yourself (go on a walk, Zoom call with close friends)
- □ Follow @dcsatmac and attend lower year council event tonight @ 7pm!
