HOW TO
Negotiate Disagreements

Accept
that disagreements can happen due to differing opinions, ideas or issues.
Recognize
that constructive disagreement or debate can lead to creativity and learning.

Focus
on issues, tasks and goals, not individuals. Follow the ground rules defined in your Team Charter.

Respect
others by articulating your needs without accusation. Try to understand the situation before assuming.

Revisit
the objectives of the team project and focus on constructive problem solving.
