

1 Locate and select the H5P of interest from your Content bank.

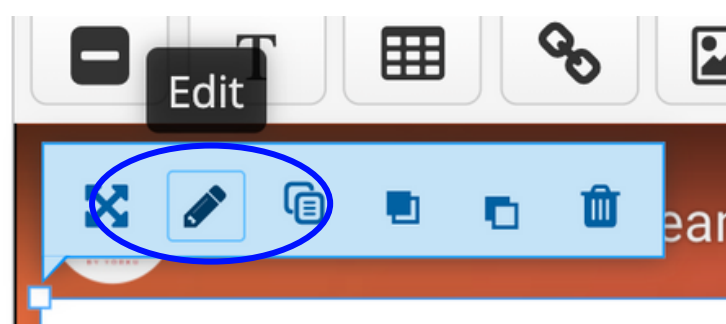

2 To make changes, click on the "Edit" button to open the editor tool.

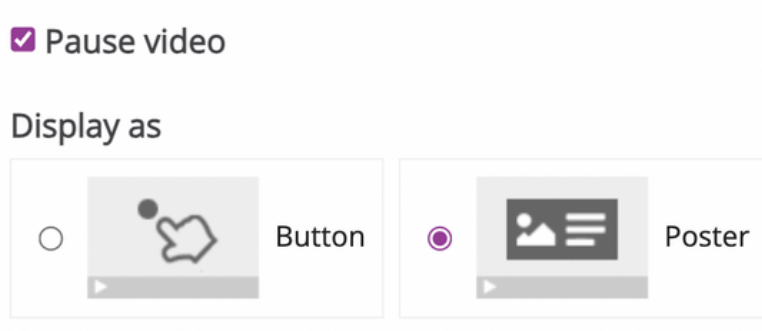

3 To make changes to existing interaction, click on the white dot above the video timeline.

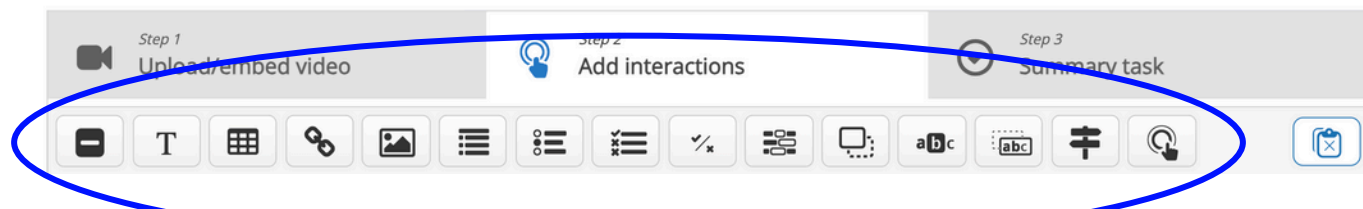

4 Then, right click on the image for the tool bar to appear. Click on the pencil icon to edit the interaction.

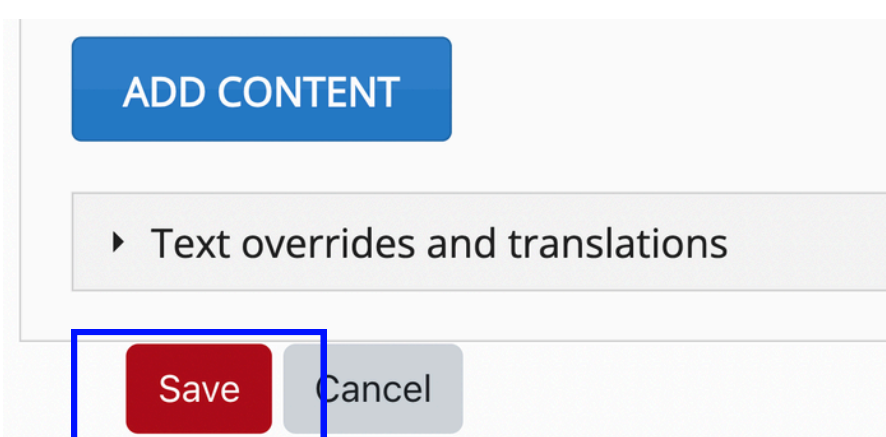

5 To change the display of the interactive video, click "Button" or "Poster".

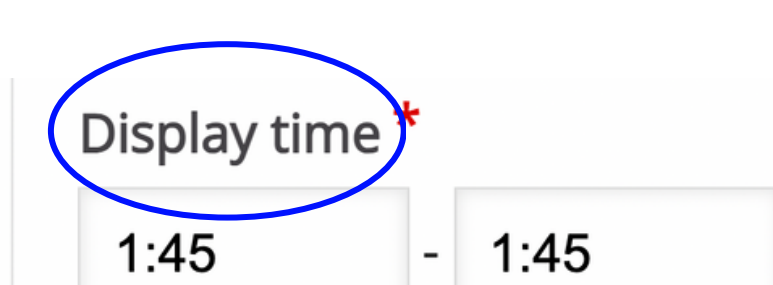

6 On the top menu, you can add a statement, a single choice set, a multiple-choice question, true or false, fill in the blank, drag and drop, etc.

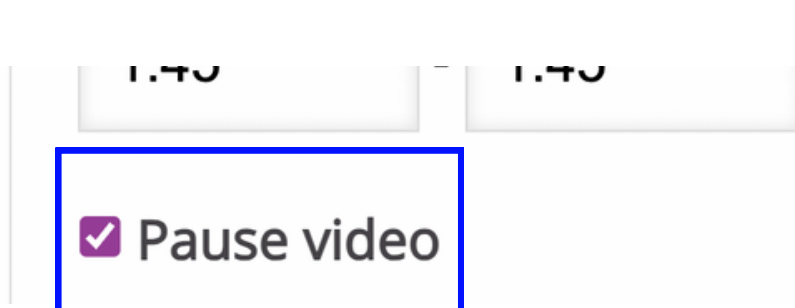

7 Once finished with all the changes, scroll down to the bottom and click "Save".

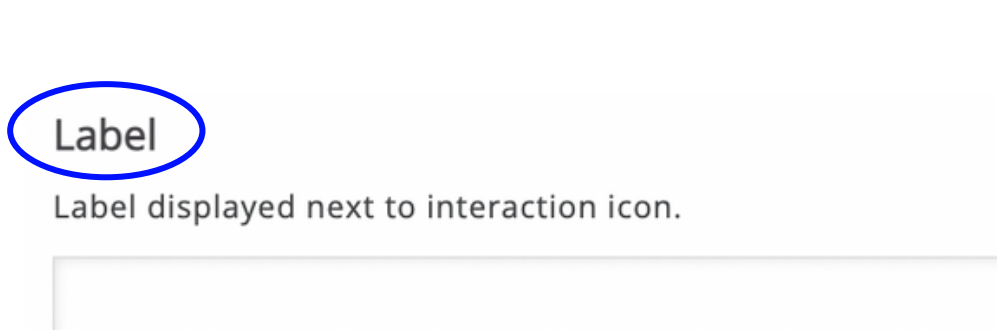

8 To add an interaction on a different timestamp, bring the video to the timestamp of interest. You can also edit the timestamp under "Display time".

9 Pause the video by enabling the check mark. The video will pause when this interaction appears at this timestamp.

10 You can add a title to your interaction in the text box under "Label". Click "Done" once you are finished with the changes.

11 Scroll down and click "Save" once you are finished editing the h5p.
