CONTENTS

Accessing and Using the Organic and Biochemistry Supplement to Enhanced Introductory College Chemistry	xi
Acknowledgements	xv
Acknowledgements of Land and Diversity	xix
Accessibility Statement	xxi

Chapter 19: Organic Chemistry

19.1 Alkanes, Alkenes, Alkynes and Aromatic Hydrocarbons	8
19.2 Alcohols and Ethers	13
19.3 Aldehydes, Ketones, Carboxylic Acids, and Esters	16
19.4 Amines and Amides	22
19.5 Families of Organic Molecules - Functional Groups	27
19.6 General Reactions of Carbon	32
19.7 Introduction to Green Chemistry	43
Chapter 19 - Summary	48
Chapter 19 - Review	51
Chapter 19 - Infographic descriptions	56

Chapter 20: Alkanes and Alkyl Halides

20.1 Characteristics of Alkanes	70
20.2 Alkane Formulas	80
20.3 Isomers of Alkanes and IUPAC Nomenclature	88
20.4 Cycloalkanes	101

20.5 Halogenated Alkanes	113
20.6 Reactions of Alkanes	125
Chapter 20 - Summary	135
Chapter 20 - Review	137
Chapter 20 - Infographic descriptions	146

Chapter 21: Advanced Theories of Covalent Bonding

21.1 Valence Bond Theory	155
21.2 Hybrid Atomic Orbitals	161
21.3 Multiple Bonds	176
21.4 Molecular Orbital Theory	181
Chapter 21 - Summary	200
Chapter 21 - Review	202

Chapter 22: Alkenes, Alkynes and Aromatics

22.1 Alkenes and Alkynes - Structure and Naming	216
22.2 Structure of Alkenes - Cis-Trans Isomers	231
22.3 Reactions of Alkenes and Alkynes	237
22.4 Aromatic Compounds - Structure and Naming	253
22.5 Aromatic Reactions	272
Chapter 22 - Summary	285
Chapter 22 - Review	287
Chapter 22 - Infographic descriptions	298

Chapter 23: Alcohols, Ethers and Related Groups

23.1 Alcohols - Structure, Naming and Classification	312
23.2 Physical Properties of Alcohols	322
23.3 Formation of Alcohols	328
23.4 Reactions of Alcohols	335
23.5 Phenols	349
23.6 Ethers - Structure and Naming	356
23.7 Thiols	363
Chapter 23 - Summary	370
Chapter 23 - Review	373
Chapter 23 - Infographic descriptions	383

Chapter 24: Aldehydes and Ketones

24.1 The Carbonyl Group	395
24.2 Naming Aldehydes and Ketones	404
24.3 Physical Properties of Aldehydes and Ketones	414
24.4 Chemical Properties of Aldehydes and Ketones	423
Chapter 24 - Summary	437
Chapter 24 - Review	440
Chapter 24 - Infographic descriptions	447

Chapter 25: Carboxylic Acids and Esters

25.1 Carboxylic Acids - Structure and Naming	456
25.2 Physical Properties of Carboxylic Acids	468
25.3 Formation and Reactions of Carboxylic Acids	475
25.4 Ionization and Neutralization of Carboxylic Acids	485

25.5 Esters - Structure, Properties and Naming	491
25.6 Reactions of Esters	502
Chapter 25 - Summary	509
Chapter 25 - Review	512
Chapter 25 - Infographic descriptions	518

Chapter 26: Amides and Amines

26.1 Amines - Structure and Naming	533
26.2 Amines - Physical Properties	542
26.3 Heterocyclic Nitrogen Compounds	549
26.4 Basicity of Amines	556
26.5 Amides - Structures, Properties and Naming	559
26.6 Chemical Properties of Amines and Amides	569
Chapter 26 - Summary	578
Chapter 26 - Review	581
Chapter 26 - Infographic descriptions	587

Chapter 27: Polymers

27.1 Polymerization	601
27.2 Classification of Polymers	606
27.3 Polyethylene	610
27.4 Addition Polymerization	614
27.5 Rubber and Other Elastomers	625
27.6 Condensation Polymers	632
27.7 Properties of Polymers	644
27.8 Plastics and Recycling	652
27.9 Plastics and the Environment	660

Chapter 27 - Summary	669
Chapter 27 - Review	673
Chapter 27 - Infographic descriptions	678

Chapter 28: Introduction to Biochemistry

28.1 Carbohydrates	689
28.2 Lipids	715
28.3 Amino Acids, Proteins, and Enzymes	739
28.4 Nucleic Acids and DNA	764
28.5 Vitamins	791
Chapter 28 - Summary	803
Chapter 28 - Review	809
Chapter 28 - Infographic descriptions	822

Chapter 29: Introduction to Chromatography and Spectroscopy

29.1 Chromatography Basics	830
29.2 Thin Layer (TLC) and Paper Chromatography (PC)	832
29.3 Chromatographic Columns	839
29.4 Chromatography Technology	844
29.5 Spectroscopy Basics	851
29.6 Infrared (IR) Spectroscopy	856
29.7 Mass Spectrometry (MS)	876
29.8 Nuclear Magnetic Resonance (NMR)	883
29.9 ¹ H NMR Spectroscopy	888
29.10 ¹³ C NMR Spectroscopy	907
29.11 Visible and Ultra-Violet Spectroscopy (UV-Vis)	919
Chapter 29 - Summary	933

Chapter 29 - Review	938
Chapter 29 - Infographic descriptions	959
Appendix A: Key Element Information	968
Appendix B: Organic Chemistry Software	971
Glossary	974
Ancillary Resources for Faculty	989
Update & Change Log	991

ACCESSING AND USING THE ORGANIC AND BIOCHEMISTRY SUPPLEMENT TO ENHANCED INTRODUCTORY COLLEGE CHEMISTRY

Welcome to the Organic and Biochemistry Supplement to Enhanced Introductory College Chemistry

This book is designed to be a continuation of *Enhanced Introductory College Chemistry* Chapters 1-18. Formatting, chapter numbering and content reference refer to this first text.

This textbook is designed to be accessible using standard web browsers, mobile devices, screen readers and other assistive technology. You can access the book in a number of formats. Requirements, tools, and suggestions for navigating and using the book are listed on this page. If you encounter any issues in accessing the book, please connect with your professor.

Never used an Open Educational Resource (OER) before?

- Check out our Student Guide to Using OER Textbooks (<https://ecampusontario.pressbooks.pub/georgianoer/>)

Book formats

Textbook Formats, Requirements, Features & Access Options

Book Format	Requirements	Features	Access options
Online web book	<ul style="list-style-type: none"> • Internet access • Web browser 	<ul style="list-style-type: none"> • Optimized for online access (web browser) • Embedded interactive and text-based activities • Embedded videos • Embedded glossary terms 	<ul style="list-style-type: none"> • Read online with your device or assistive technology • Use Text-to-Speech to listen to the book • Take Digital notes while you read
Digital PDF	<ul style="list-style-type: none"> • Internet access • PDF viewer 	<ul style="list-style-type: none"> • Optimized for reading with internet (PDF viewer) • Text-based activities • Clickable Links to videos and other resources • Glossary of terms 	<ul style="list-style-type: none"> • Save to a device or drive as desired • Access from your device • Use internet access for clickable links/videos • Take Digital notes while you read
Print PDF	<ul style="list-style-type: none"> • Internet access for initial download • PDF viewer to open file • Ability to print or access to a print shop (recommended) 	<ul style="list-style-type: none"> • Optimized for printing/ accessing offline • Text-based activities • Glossary of terms 	<ul style="list-style-type: none"> • Save to a device or drive as desired • Read offline on device (no active/clickable links) • Print chapters or whole book as needed • Refer back to web book to access links/interactive activities

Do you prefer a printed textbook?

This book is **free** to access, use, and print in any of the above formats for non-commercial purposes. If you prefer a printed textbook, you are encouraged to print sections/the entire book.

Printing – Recommendations

- Check for printing costs at your on-campus print shop (such as Grenville at Georgian College) or a local print shop (Staples, etc)
- Consider printing this textbook in black & white (not full colour), and refer to the web-book or PDF where you need to examine the colour diagrams
- Printing a large document is often significantly less expensive at a print shop than it is to print on your home printer or at the Library
- Ask about binding or 3 hole punching when you order, as this is usually low cost and will make your textbook easier to use

Except where otherwise noted, this book is licensed under the Creative Commons Attribution-NonCommercial-ShareAlike 4.0 International license, allowing students/faculty to print it for their personal use at the cost of printing.

Math Equations

This book uses regular HTML to express simple math equations (such as $\langle \text{sup} \rangle$, $\langle \text{sub} \rangle$, italics and special characters) combined with Latex coding (rendered by MathJax) to prepare and display complex mathematical and chemical equations. Users of assistive technology may need to configure their software or download/activate a plugin to properly interpret the math.

Please consult with your Adaptive technologist or Accessibility advisor for assistance if necessary.

MathJax offers numerous accessibility features, including the ability to present equations in different formats, zoom, etc. Please see our Accessibility Statement for more details.

Experiencing navigation issues?

If you encounter navigation issues while accessing this text via a link from your course in Blackboard (or other learning management system), please try accessing the online web book by using the web address in your browser. The bottom left and right corners of the web book allow you to navigate through the book (previous/next) and the top left hand corner of the web book features a drop down table of contents.

Attribution & References

Except where otherwise noted, “Accessing and Using this Textbook” by OER Design Studio at the Georgian College Library is licensed under CC BY-NC 4.0.

ACKNOWLEDGEMENTS

Funding Acknowledgement

Funded by the Government of Ontario. The views expressed in this publication are the views of the author(s) and do not necessarily reflect those of the Government of Ontario or the Ontario Online Learning Consortium.

This open educational resource (OER) textbook was developed collaboratively by Georgian College, and Loyalist College. Each institution generously provided additional support, with contributors noted below.

Contributors

Content Authors

- Gregory A. Anderson, HBSc, MSc, PhD – Georgian College
- Caryn Fahey, BSc, MEd – Loyalist College
- Adrienne Richards, HBSc, MSc – Georgian College
- Samantha Sullivan Sauer, HBSc, MAsc, BEd – Georgian College
- David Wegman, HBSc, PhD – Georgian College

Copyright, AODA & Tech Support

- Jen Booth, BA, MIST – Georgian College

Additional Supports

- Revathi Mahadevan – Georgian College
- Jessica Jones – Georgian College

Original OER Sources

This OER, *Organic and Biochemistry Supplement to Enhanced Introductory College Chemistry*, is a collection of resources adapted to meet the needs of students in introductory organic chemistry courses. In most sections of this OER, updates have been made to the existing content to improve usability and accessibility, incorporate interactive elements and improve the overall student experience. Except where otherwise noted, images and diagrams are derived from the source attributed at the end of each page.

Much of the OER chemistry content available on the web is derived from a few key sources. In this OER, we've attempted to provide clear attribution to the sources we used, while also acknowledging those original sources. Often, the differences in derivatives from those key original sources is minor. We've done our best to provide accurate attribution. Ancillary resources for this textbook include an image bank in PPT format, and for this reason, we've attempted to attribute the images throughout the text to their *original source*, since they'll be used separately from the textbook.

Attribution is complicated for these sources, due to a large amount of remixing and re purposing of chemistry content on various platforms. In some cases, pages within the same book are shared under different licenses, and this chemistry text reflects the original licenses. Individual source content is identified on each page of this text, and has been remixed as permitted by the licenses of the source text to improve reading flow, enhance student understanding, and streamline to meet the needs of Georgian and Loyalist students.

The following key sources (and their derivatives) were reused in this textbook:

- Basics of General, Organic, and Biological Chemistry (Ball et al.) ([https://chem.libretexts.org/Bookshelves/Introductory_Chemistry/Basics_of_General_Organic_and_Biological_Chemistry_\(Ball_et_al.\)](https://chem.libretexts.org/Bookshelves/Introductory_Chemistry/Basics_of_General_Organic_and_Biological_Chemistry_(Ball_et_al.))) by David W. Ball, John W. Hill, and Rhonda J. Scott via LibreTexts, CC BY-NC-SA 4.0./ A LibreTexts version of *Introduction to Chemistry: GOB (v. 1.0)*, CC BY-NC 3.0.
- Compound Interest: Chemistry infographics (<https://www.compoundchem.com/>) by Andy Brunning, CC BY-NC-ND 4.0
- Crash Course Chemistry: Organic Chemistry (<https://www.youtube.com/playlist?list=PL8dPuuaLjXtONguuhLdVmq0HTKS0jksS4>) on YouTube, shared under the Standard YouTube license (<https://www.youtube.com/static?gl=CA&template=terms>).
- *Map: Fundamentals of General Organic and Biological Chemistry (McMurry et al.)* ([https://chem.libretexts.org/Bookshelves/Introductory_Chemistry/Map%3A_Fundamentals_of_General_Organic_and_Biological_Chemistry_\(McMurry_et_al.\)](https://chem.libretexts.org/Bookshelves/Introductory_Chemistry/Map%3A_Fundamentals_of_General_Organic_and_Biological_Chemistry_(McMurry_et_al.))), CC BY-NC-SA 3.0, a remixed version of *Basics of GOB (Ball et al.)*, CC BY-NC-SA 4.0 which is a LibreTexts version of *Introduction to Chemistry: GOB (v. 1.0)*, CC BY-NC-SA 3.0
- *General Chemistry 1 & 2* (<https://boisestate.pressbooks.pub/chemistry/>) by Rice University, a derivative of *Chemistry (Open Stax)* by Paul Flowers, Klaus Theopold, Richard Langley & William R.

Robinson and is licensed under CC BY 4.0. Access for free at *Chemistry (OpenStax)*

Copyright & Open Licensing

Organic and Biochemistry Supplement to Enhanced Introductory College Chemistry is licensed under CC BY-NC-SA 4.0 (<https://creativecommons.org/licenses/by-nd-sa/4.0/>), except where otherwise noted. Individual sections, content, images and activities are marked with their relevant copyright and open licensing information.

- YouTube videos in this OER are embedded/used under the Standard YouTube license [New tab] (<https://www.youtube.com/static?gl=CA&template=terms>).
- PhET Interactive Simulations in this OER are embedded/used under PhET licensing – CC BY 4.0 [New tab]
- Third-party images, text and other materials are marked with references in APA format, modified to be accessible as per the APA website [New tab] (<https://apastyle.apa.org/style-grammar-guidelines/paper-format/accessibility/urls>)

Unless otherwise indicated, third-party texts, images and other materials quoted in this OER are included on the basis of Fair Dealing (Canada) as described in the Code of Best Practices for Fair Dealing for Open Educational Resources [New tab] (<https://www.carl-abrc.ca/influencing-policy/copyright/carl-codes-of-best-practice-fair-dealing/>).

This digital text OER has been developed with Universal Design for Learning (UDL) elements in mind. We have made every reasonable effort to ensure accessibility (AODA) and copyright compliance. We welcome your review and feedback. We encourage you to reach out to the project manager or copyright and AODA reviewer with any concerns, suggestions for modifications, and ideas for enhancements.

Please submit feedback to OER[at]georgiancollege.ca

Disclaimer

We have done our best to acknowledge all participants involved in this project. In the event, we have made an error please reach out to the project manager to have this corrected.

ACKNOWLEDGEMENTS OF LAND AND DIVERSITY

Land Acknowledgements

Georgian College

Georgian College acknowledges that all campuses are situated on the traditional land of the Anishnaabeg people. The Anishnaabeg include the Odawa, Ojibwe and Pottawatomi nations, collectively known as the Three Fires Confederacy. Georgian College is dedicated to honouring Indigenous history and culture and committed to moving forward in the spirit of reconciliation and respect with all First Nations, Métis and Inuit people.

Read more at Indigenization – Georgian College [New tab] (<https://www.georgiancollege.ca/about-georgian/corporate-information/indigenization/>).

Loyalist College

Loyalist College is built upon the lands governed by the Dish with One Spoon wampum agreement. We affirm and thank the Haudenosaunee, Anishinaabeg, and Huron-Wendat nations for their continued caretaking of the land. We offer respect to Indigenous people from all nations who call this area home. We honour elders and traditional knowledge keepers, past, present, and future.

Read more at Land Acknowledgement : Loyalist College [New tab] (<https://loyalistcollege.com/indigenous-services/land-acknowledgement/>)

Commitment to Equity, Diversity, Inclusion and Indigenization in Chemistry

As with our previous OER, *Enhanced Introductory College Chemistry* [New tab] (<https://ecampusontario.pressbooks.pub/enhancedchemistry/>) Chapters 1-18, our commitment to equity, diversity, inclusion and indigenization is forefront and continued. In compiling this resource, the contributors have made conscious efforts to include examples of diversity of organic chemistry applications and scholars.

Please refer to our page Commitment to Equity, Diversity, Inclusion and Indigenization in Chemistry –

Enhanced Introductory College Chemistry [New tab] (<https://ecampusontario.pressbooks.pub/enhancedchemistry/front-matter/commitment-to-edi-and-indigenization-in-chemistry/>) for more information and suggestion to support equity, diversity, inclusion and belonging as well as indigenization in chemistry classrooms.

Attribution & References

Except where otherwise noted, “Acknowledgement of Land and Diversity” is written by Samantha Sullivan Sauer is licensed under CC BY 4.0.

Land Acknowledgements have been prepared by the colleges noted.

ACCESSIBILITY STATEMENT

Accessibility features of the web version of this resource

The web version of *Organic and Biochemistry Supplement to Enhanced Introductory College Chemistry* has been designed with accessibility in mind by incorporating the following features:

- It has been optimized for people who use screen-reader technology.
 - content can be navigated using a keyboard.
 - links, headings, and tables are formatted to work with screen readers.
 - Complex equations are rendered by MathJax for improved accessibility [New tab] (<https://pressbooks.com/new-features/mathjax-now-available-on-pressbooksedu/>)
- All images in this OER are described fully in the text, alt-tag or in an image description section for complex images.
 - Due to the complex nature of chemistry images and diagrams, alt text description may be longer than anticipated. This allows for full description of the information being conveyed by image/size/colour/labels.
 - Some images may not have fully descriptive alt-text due to the visual nature of exercises and questions.
 - If there are errors or concerns, please contact OER[at]georgiancollege.ca
- Information is not conveyed by colour, bold or italics alone.
- Pressbooks has built in features such as the ability to change font size.

Other file formats available

This book is also available in PDF formats that you may save, print, access offline or use with internet access. See *Accessing and Using Organic and Biochemistry Supplement to Enhanced Introductory College Chemistry* for full details and links.

Efforts have been made to improve the user experience in all formats – if you encounter any access issues or barriers, please connect with your professor.

Known accessibility issues and areas for improvement

This book’s adapters have attempted to improve upon existing features from the original sources and improve these materials for all users.

While we strive to ensure that this resource is as accessible and usable as possible, we might not always get it right. Any issues we identify will be listed below. If you encounter issues with this text, please notify your Professor.

List of Known Accessibility Issues

Location of Issue	Need for Improvement	Timeline	Work Around
Chapter Review Pages throughout book	Questions/answers may not be optimized in ordered lists due to limitations of the footnote tool.	unknown	Ordered lists have been used when possible. Some footnote/answers will read as a sentence with answers.
Math operators such as – (minus)	Due to the large variety of sources, there may be inconsistencies in the use of dash – or negative –, and other math operators in HTML.	as found	Replacing standard characters with math operators whenever possible/as identified.
Superscript & Subscript	Some screenreaders may not correctly read out sub or superscript numbers/etc.	unknown	Students should consult their adaptive technologist or accessibility advisor and explore settings to enable their software to identify and read characters / math correctly.
Representation of bonds	use of = to represent double bond and ≡ to represent triple bond, and – to represent single bond	unknown	none at present. Will update as possible when a workaround is found.
Alt-text for infographics	Infographics have been used throughout the book to enhance student learning, but may not be an optimal format for some users.	unknown	Textual equivalents have been created to help describe the content relayed via infographics. Links to more information have been provided where possible. Review & updating of alt-text throughout the book is an on-going project.

Accessibility standards

The web version of this resource has been designed to meet AODA requirements [New tab] (<https://www.aoda.ca/the-act/>), along with the Web Content Accessibility Guidelines 2.0 [New tab] (<https://www.w3.org/TR/WCAG20/>), level AA. In addition, it follows all guidelines in Appendix A: Checklist for Accessibility [New tab] (<https://opentextbc.ca/accessibilitytoolkit/back-matter/appendix-checklist-for-accessibility-toolkit/>) of the *Accessibility Toolkit – 2nd Edition* [New tab] (<https://opentextbc.ca/accessibilitytoolkit/>).

This statement was last updated on February 15, 2024.

Attribution & References

This information was adapted from “Accessibility statement (<https://opentextbc.ca/pressbooks/front-matter/accessibility-statement/>)” In *Pressbooks Guide* (<https://opentextbc.ca/pressbooks>) by BCcampus , licensed under CC BY 4.0. / Adapted to match the current OER with relevant deficiencies noted.
