

Introduction

How to Navigate Pressbooks Video Transcript

Let's start on the course homepage.

A copy is available to download for offline reading or reuse. Select a format from the dropdown below the cover image to start the download.

To read the book from the very beginning, select the "Read Book" button to be taken to the first page of the course.

Alternatively, you can scroll down on the landing page to see the table of contents to navigate to a specific module or section.

The table of contents is always available at the top left of the screen. Select the Contents button to open the table of contents.

Select the plus button to show all the sections of each module.

A search box is available at the top right of every page to search for a specific word or phrase.

Wherever the word or phrase appears in the course, it will be highlighted in the results list.

Once inside the course, navigate from page to page in order by selecting the "Next" and "Previous" buttons at the bottom of each page.

At any point, to jump to the top of a page, select the up arrow at the bottom of the page.

Thank you for watching, enjoy!
