Dear Community Health Nurse:

I am very interested in applying for the potential placement of **the Breastfeeding and Well Baby Clinic at the Peterborough Child & Family Centres** shared by Trent Clinical Placement Team.

As a mother, I have personal experiences in baby care and breastfeeding. I used to take my son to your Centre for learning and socializing weekly. I truly understand pregnancy, breastfeeding, and baby safety can be overwhelming to new moms. As a registered practical nurse, I have been working full time at **PRHC** for almost 3 years. I have been nominated for PRHC peer supporter. I am accountable and a great resource. I have ample experience in patient care and nursing skills in areas of **Complex Continuing Care, Palliative, cardiology, stroke/rehab, surgical, mental health, nephrology, dialysis**, etc. I have developed a wide range of skills that would meet and exceed the expectations for the role. Furthermore, I have obtained many achievements, including Standard First Aid with CPR C+AED, WHMIS, WHSA, GPA, and Indigenous Perspective Design (IPD), entry scholarship at Trent University. I am proficient in EPIC, Automated Dispensing Units (ADUs), and Microsoft Office programs (Word, Excel, Outlook, and PowerPoint). I can use both Microsoft and Mac-based computer platforms. Also, I can speak both Chinese and English fluently.

I am a positive person with strong sense of ethics and responsibility. Having worked as a teacher in China for 5 years, I taught various subjects and worked with kids and parents daily. I have the skills and abilities to work independently as well as part of a team, especially in a changeable and stressful environment. I am well organized and hardworking, which has helped me successfully advance through the PN program and thrive the Compressed Nursing program at Trent. I am able to manage time, communicate, observe, and document efficiently and properly. I understand the importance for a family: good care & quality of life, health & wellness, safety & happiness. Last but not least, I have achieved the GPA and the IPD, I respect different cultures and perspectives in different age groups. I have expanded my knowledge of nursing competences, culture competences and culture safety. I am confident that I will be a strong addition to your team.

I look forward to meeting with you and discussing more about what I can learn and bring to your team. You can contact me by cell phone at **+1(705)761-5626** or by e-mail at **weichen@trentu.ca**. I am available at any time that is convenient for you. Thank you for your attention and consideration.

Sincerely,
Wei Chen
