

(Book 4) Lesson 19a.

Notes on the "E" (6th) String

All single string scales and fingering devices will be identical to the first string.

Alphabet: (brackets show the 1/2 tones)

Continue plectrum study on the above exercise, grouping the notes in two, three and four notes per beat.

UNISON NOTES:

This musical diagram depicts the string relationships. The numbers are the fret locations.

Study carefully if you have not already become aware of these relationships.

If you have been totally unaware of the tuning system on the guitar, it would be a real surprise to me if you were actually able to play the instrument at all.

Most of the rather sarcastic comments are the responsibility of the editor. Mr. Bradan, while quite humorous, was not a particularly sarcastic fellow. Those who read the sarcasms will most likely be students who will understand them as the humour that was intended. Many lesser students will never progress to this level so I am not too worried about their opinion on my humour.
(editor: George Arvola)
