

(Editor: Once more, I chose four syllable words which reflect the string names with their first letters. I also created a new word for the English dictionary beginning with the letter "B." There is no word such as "Bomination" but maybe an astute student will see it more like 'bomination, and also notice that these words have a certain rhyme. Tony's original words were: DICTIONARY, INTERESTING, DELICATELY, CIRCUMSTANCES, HIAWATHA and JANUARY. G.A.)

Observe the 6 suggested picking patterns.
