

## LESSON 23.

### Two Octave "E" Alphabets (2 Octave Scales)

The note groupings of Lesson 22 should now be applied to the following scales.

Remember: read the note name but think the inflection.

If trouble still persists, you might devote some time to reading without playing, keeping in mind that reading by the beat and improving your scanning capabilities is what you are after. Applying and writing the note groupings as in Lesson 22 would be an excellent practice.

Notice that all of the scales make use the same alphabet.
