To whom it may concern,

I am writing to speak on behalf of Katarina Kaufmann- Snoddon. I had the pleasure of having Katirna in my classroom this fall, as a Trent tutor to support students in their reading. Katarina was an excellent addition to our classroom environment. She was punctual, helpful, and learner focused. She made sure she knew all the students in the classroom. She was interested in the learning and made sure to connect her materials to the theme that was being taught. Her time with the students was purposeful and she was always eager to help me in my planning and preparation.

PLease do not hesitate if you have any further questions,
